Skills

- Full-Stack Development
- Database Management
- Server-Side Technologies
- Version Control / Git
- Problem Solving & Debugging
- Sprint Planning

Experience

Full Stack Developer May 2023 - Aug 2023
Three Trees Technical

- Performed analysis, design, coding, testing, implementation.
- Developed and maintained web applications using the MEAN stack, comprising MongoDB, Express.js, Angular, and Node.js, to create responsive and efficient solutions.
- Worked effectively within Agile software development life cycle, including sprint planning, sprints, and sprint review.

Freelance Web Developer Dec 2022 - Jan 2023
robertomaiglerroofing.ca

- Designed and implemented a dynamic, user-friendly website from scratch using JavaScript and React, demonstrating knowledge in front-end and back-end development, including responsive design and cross-browser compatibility.
- Created custom React components and implemented state management to ensure seamless user interactions.
- Improved website performance by optimizing code, reducing load times, and implementing best practices for web development.

Tech Specialist Jun 2023 - Oct 2023
London Drugs

- Provided technical assistance to customers in selecting and troubleshooting electronic products.
- Managed and maintained inventory levels for tech products, optimizing stock availability and assisting with inventory audits to minimize discrepancies.
- Collaborated with team members to achieve sales targets, participated in product knowledge training, and assisted in visual merchandising to enhance the customer shopping experience.

Education

Information & Computer Systems Technology (Diploma) - Computer Science Sep 2021 - Sep 2023
Camosun College, Victoria, British Columbia
